Supplementary file 2: Operational Definition of Criteria

Criteria	Operational Definition
Familiarity	Are you familiar with the KT, theory, model or framework?
Logical Consistency/Plausibility	Does the KT theory, model or framework, include meaningful, face-valid explanations of proposed relationships?
Degree of specificity	Does the KT theory, model, or framework include constructs that are comprehensive of implementation determinants or specific to a set of implementation determinants that could be applied to health technology reassessment (HTR)?
Accessibility	Would non-experts be able to understand, apply and operationalize the KT theory, model, or framework to HTR?
Ease of use	Can the KT theory, model, or framework be used easily?
HTR Suitability	Based on your responses to the previous criteria, is the KT theory, model, framework suitable for the dissemination and implementation of HTR outputs (increase use, decrease use or exit of the technology)?
